TREES

CONNECTED TO THE NATURE

TREES

Nuova serie di strutture ludiche, esclusive ed uniche al mondo dove l'albero, elemento principale ed insostituibile della produzione di Legnolandia, diventa emblematico, riconoscibile e familiare: il fulcro del parco giochi.

Trees caratterizzano non solo parchi ed aree verdi, ma anche spazi urbani che vogliono vestirsi di colori e forme più amati: quelli della natura.

New series of play structures, exclusive and unique in the world. The tree as the main element becomes emblematic and irreplaceable in Legnolandia's production: it is the core of the playground.

Trees do not only characterize parks and green areas, but also urban spaces that want to dress in the most popular colours and shapes: the colours of nature.

Legnolandia consiglia l'utilizzo di superfici anti-trauma con materiali naturali: prato, ghiaia, sabbia, cippato, corteccia. Sono economiche, sicure, divertenti e non feriscono il pianeta.

Legnolandia recommends the use of anti-shock surfaces made of natural materials: grass, gravel, sand, wood chips, bark. They are economic, safe, fun and do not hurt the planet.

DA UN TRONCO DALLE RADICI PROFONDE CRESCONO I RAMI FONDAMENTALI DELLA NOSTRA FILOSOFIA PRODUTTIVA. A TREE WITH DEEP ROOTS SUPPORTS THE BRANCHES ON WHICH WE BASE OUR PRODUCTION PHILOSOPHY.

Sicurezza:

Certificati TÜV.
Assicurazione R.C.
Calcoli statici.

Safety and durability:
TÜV certificates.
Liability insurance.
Static calculations.

Salvaguardia ambientale:

Certificati ISO 14001 - PEFC - FSC

Environmental safeguard:
ISO 14001 - PEFC - FSC certificates.

Riduzione della CO₂ grazie a:

Materia prima a "Km. zero".
Energia da fonti rinnovabili.
Solo materiali eco-compatibili.

CO₂ reduction through:
Local raw material.
Energy from renewable sources.
Only eco-friendly materials.

Salute ed inclusività:

Progettazione su basi scientifiche.
Giochi inclusivi adatti a tutte le abilità.

Health and inclusiveness:
Design based on scientific knowledge.
Inclusive playgrounds suitable for any kind of ability.

Servizio e Garanzie:

Progettazione gratuita aree attrezzate.
Manutenzione minima.
Assistenza continua.
Garanzia fino a 20 anni.

Service and Warranty:
Planning and design free of charge.
Continuous assistance.
Minimal maintenance.
Warranty up to 20 years.

LEGNOLANDIA

Dal 1830 lavoriamo il legno dei nostri boschi a "Km. zero"

Since 1830 we work wood from our local forests.

CO2 NO THANKS

sintetizza la filosofia di questo progetto il cui obiettivo è quello di creare parchi gioco capaci di abbattere le emissioni in atmosfera.

CO2 NO THANKS

summarizes the philosophy of this project whose goal it is to create products that reduce emissions.

Trees sono vere e proprie case sugli alberi, dotate di piattaforme molto più spaziose degli standard abituali. L'esclusiva struttura a singolo pilastro, realizzata interamente in legno lamellare incastrato, è progettata per resistere a tutti i sovraccarichi e all'insidia del tempo senza la necessità di particolare manutenzione. Le strutture offrono diversi gradi di difficoltà, dalle più piccole, studiate per le scuole, agli alberi più grandi dedicati ai parchi pubblici. La linea Trees include inoltre alcuni articoli che rispettano le linee guida del progetto europeo "Play for all" teso alla creazione di parchi gioco fruibili da bambini con ogni tipo di abilità.

Trees are real tree houses with platforms much larger than the common standards. The unique structure with a single pillar is entirely made of glulam wood.

It is designed to withstand all overloads and dangers of weather without the need for special maintenance. The playground structures offer different degrees of difficulty, from the smallest tree tower, designed for schools, to the bigger trees which are dedicated to public parks. Our trees line also includes some items that meet the guidelines of the European project "Play for all" aimed at the creation of playgrounds accessible to children with any kind of ability.
