#Landscaping design

"Garden is the place where humans
meets divine"

Rosi Sgaravatti
Sgaravatti Group

WHO WE ARE

Sgaravatti Group continues the tradition of one of the most important and oldest Italian companies in the field of greenery, having successfully and continuously worked since 1820.

The company's internal professional resources allow to fully manage, both in Italy and abroad, each project phase, also in the context of considerably complex orders, starting from the study of the territory, the planning, up to the environmental impact assessment.

The production of selected lawns and typical Mediterranean essences, of which Sgaravatti supervises the entire life cycle from cutting to growing and plant positioning, guarantees high quality essences, safe grafting, as well as lush vegetation of large specimens.

Over the years, the group has designed and built many parks and gardens in different parts of the world, such as the United Arab Emirates, Ukraine, Azerbaijan, Antigua and Tunisia.

For two hundred years we have grown millions of plants, made small gardens, imperial parks, revived the desert, revegetated cliffs and escarpments, planted orchards and meadows, but above all we have cultivated and spread the love for green.

OUR TEAM

From the gardens of the Costa Smeralda, to the afforestation in the United Arab Emirates in the 70s, our design and construction skills have been successful in all soil and climatic conditions. The production and logistic capacities matured over decades, have allowed us to design and build gardens for luxury villas, public and private parks, sports facilities in different countries like Ukraine, Antigua, Georgia and Azerbaijan.

PARAGRAPH RESORT & SPA SHEKVETILI GEORGIA

2016 - 2017

Landscape design contractor :
Sgaravatti Group

Activities:

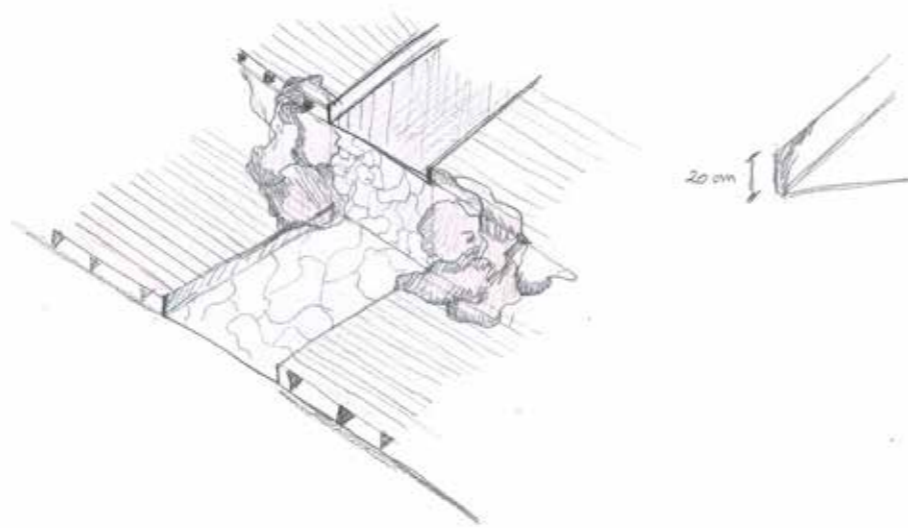

- Masterplan
- Concept Design
- Detailed Design

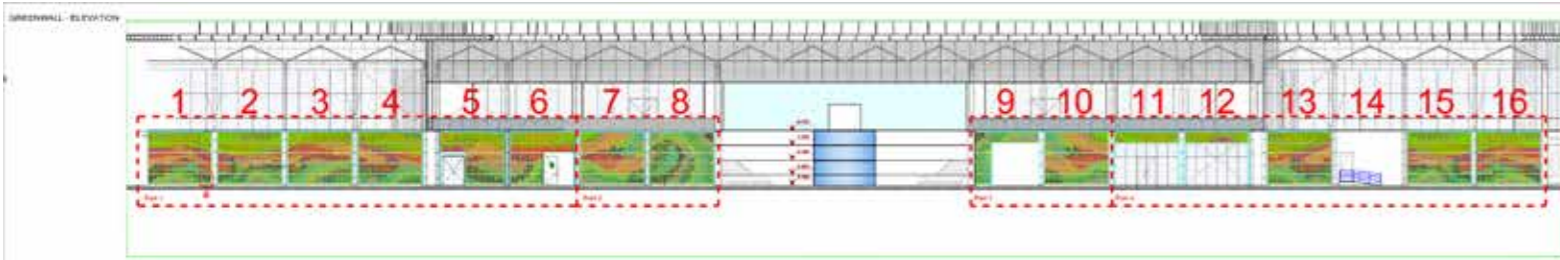

Description:

Paragraph Resort & Spa Shekvetili, is unlike any other resort. Sitting on the Black Sea shore of the Guria region of Georgia, among magnetic sand beaches and lush pine forests, the recently-opened five-star accommodation has an enviable location. The resort's architectural design is by far the resort's most outstanding feature, and the expanding public spaces within the property are intensely enveloping.

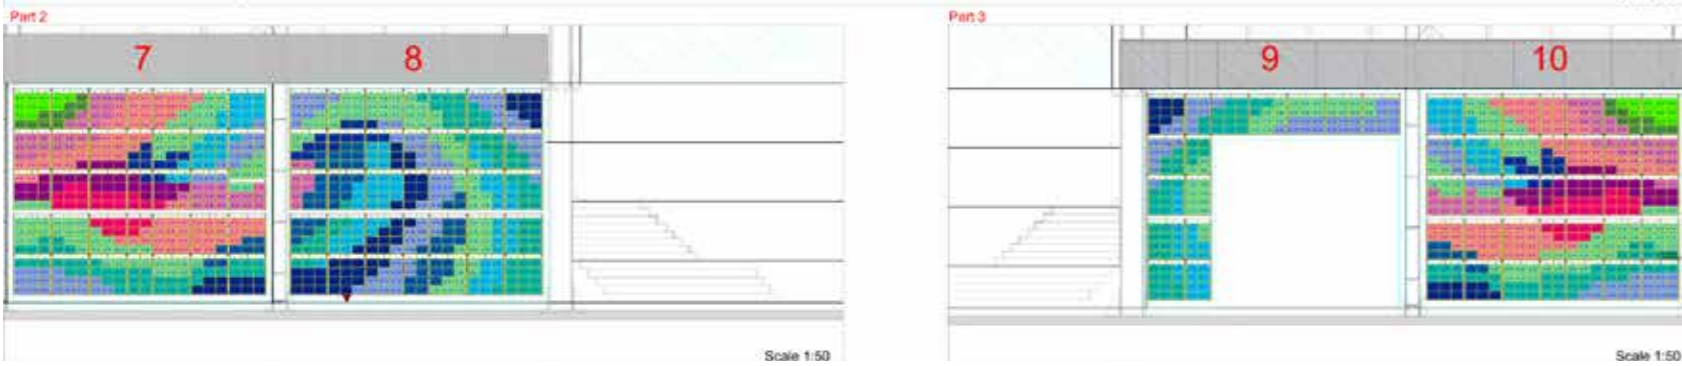

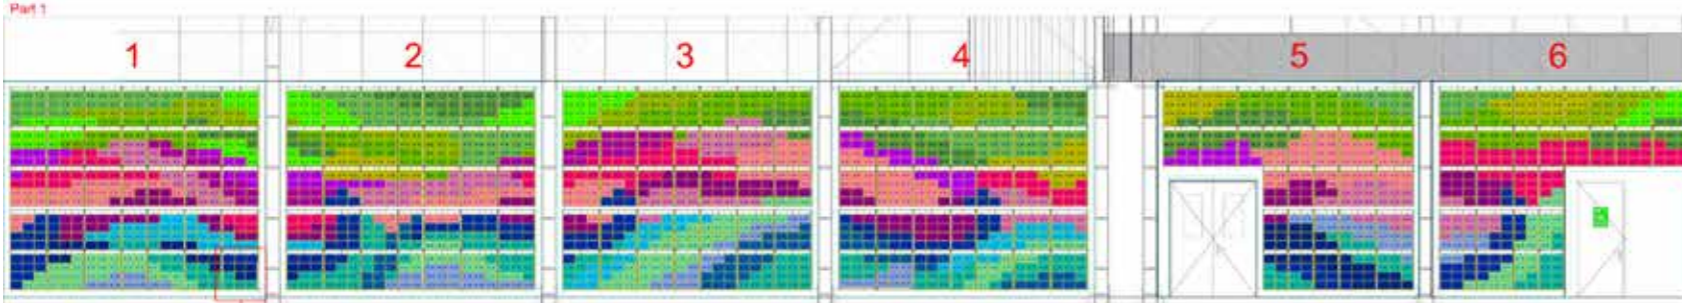

The creation of a tropical forest, walkways suspended in the green, green walls, ponds, these were the design elements developed for the Winter garden of Shekvetili from the Sgaravatti teamwork.
